Welcome!

Thank you for viewing this booklet.

I hope it helps solve all your particular storage problems.

All our cabinets are made from LFE Australian made melamine particle board and our hardware is either Blum or Hettich brand, which carry a life time warranty against defects.

Buy Australian made and keep your money in Australia, employing Australians. Your children/grandchildren will thank you.

As you are probably aware the building industry faces changes every day and as such I would ask you to take any sizes mentioned in this booklet as a guide only.

The sizes in this booklet are of a standard range but if you require anything of a different size or material this can be arranged.

Special cabinets can be made against order.
